Dear readers,  
Dear visitors to Vienna,

Hundred years after the outbreak of World War I the former enemies elect a joint European Parliament. Though we tend to forget it after the difficult developments of the past years, we should be aware that the European Union has been very successful indeed. The EU is a peace project that has brought the citizens of the various European countries closer together. Vienna, too, has benefited from the EU both economically and individually, in spite of all challenges posed by the economic crisis. Many problems cannot be solved at the national level. The Vienna City Government is committed to convincing the European partners that a strong public sector providing services of general economic interest is of key importance when it comes to guaranteeing high quality of life for all citizens.

Thanks to the EU, Vienna has become even more colourful and vibrant. By now it has some 217,000 residents born in other EU member states. Their dreams and ideas, their concerns and issues contribute to and inspire our city's development.

On occasion of the EU elections on 25 May 2014, City of Vienna Department for Economic Affairs, Labour and Statistics (MA 23) has decided to compile relevant data on Vienna in a European context. The present publication compares different EU capitals in terms of demographic data (such as population density, age, education levels), general attractiveness, and economic situation (e.g. purchasing power, labour market statistics). As a whole, Vienna scores remarkably well here. Further statistics focus on economic relations (foreign trade) and research cooperation projects by businesses and organisations based in Vienna with partners in other EU countries.

In brief, the data compiled here provide an insight into Vienna's mutual contacts to other EU member states, and illustrate the performance of the Austrian federal capital in comparison with other EU capital cities.

I am confident it will make interesting and enjoyable reading.

A handwritten signature in black ink that reads "Renate Brauner".

**EU MEMBER STATES  
BEFORE 1995 AND  
ACCESSIONS SINCE 1995**

<b>before 1995</b>	Belgium Germany France Italy Luxembourg Netherlands Denmark Ireland United Kingdom Greece Portugal Spain
<b>1995</b>	Austria Sweden Finland
<b>2004</b>	Estonia Latvia Lithuania Poland Czech Republic Slovakia Hungary Slovenia Malta Cyprus
<b>2007</b>	Romania Bulgaria
<b>2013</b>	Croatia

## HISTORICAL OVERVIEW

**1 JANUARY 1995:** Austria, Finland and Sweden join the EU, increasing the number of member states to 15.

**26 MARCH 1995:** The signatory states of the Schengen Treaty implementation agreement (Belgium, Germany, France, Luxemburg, Netherlands, Spain and Portugal) abolish identity checks at internal Community borders.

**26 OCTOBER 1997:** Italy joins the Schengen Area.

**1 DECEMBER 1997:** Austria joins the Schengen Area.

**1 MAY 1999:** The Amsterdam Treaty enters into force.

**26 MARCH 2000:** Greece joins the Schengen area.

**25 MARCH 2001:** The Schengen zone is expanded to include Denmark, Finland, Iceland and Norway.

**1 JANUARY 2002:** The Euro is introduced as cash currency in the twelve member states of the European Monetary Union.

**1 MAY 2004:** Ten European countries join the European Union: Estonia, Latvia, Lithuania, Poland, the Czech Republic, Slovakia, Hungary, Slovenia, Malta and Cyprus.

**1 JANUARY 2007:** Romania and Bulgaria join the European Union. Slovenia introduces the Euro as its national currency.

**25 MARCH 2007:** The European Union celebrates its 50th anniversary.

**21 DECEMBER 2007:** The Schengen zone is expanded to include Estonia, Latvia, Lithuania, Poland, Czech Republic, Slovakia, Hungary, Slovenia and Malta.

**1 JANUARY 2008:** Malta and Cyprus introduce the Euro as their national currency.

**12 DECEMBER 2008:** Switzerland joins the Schengen area.

**1 JANUARY 2009:** Slovakia introduces the Euro as its national currency.

**1 DECEMBER 2009:** The Lisbon Treaty enters into force.

**1 JANUARY 2011:** Estonia introduces the Euro as its national currency.

**19 DECEMBER 2011:** Liechtenstein joins the Schengen area.

**1 JULY 2013:** Croatia becomes a member of the European Union.

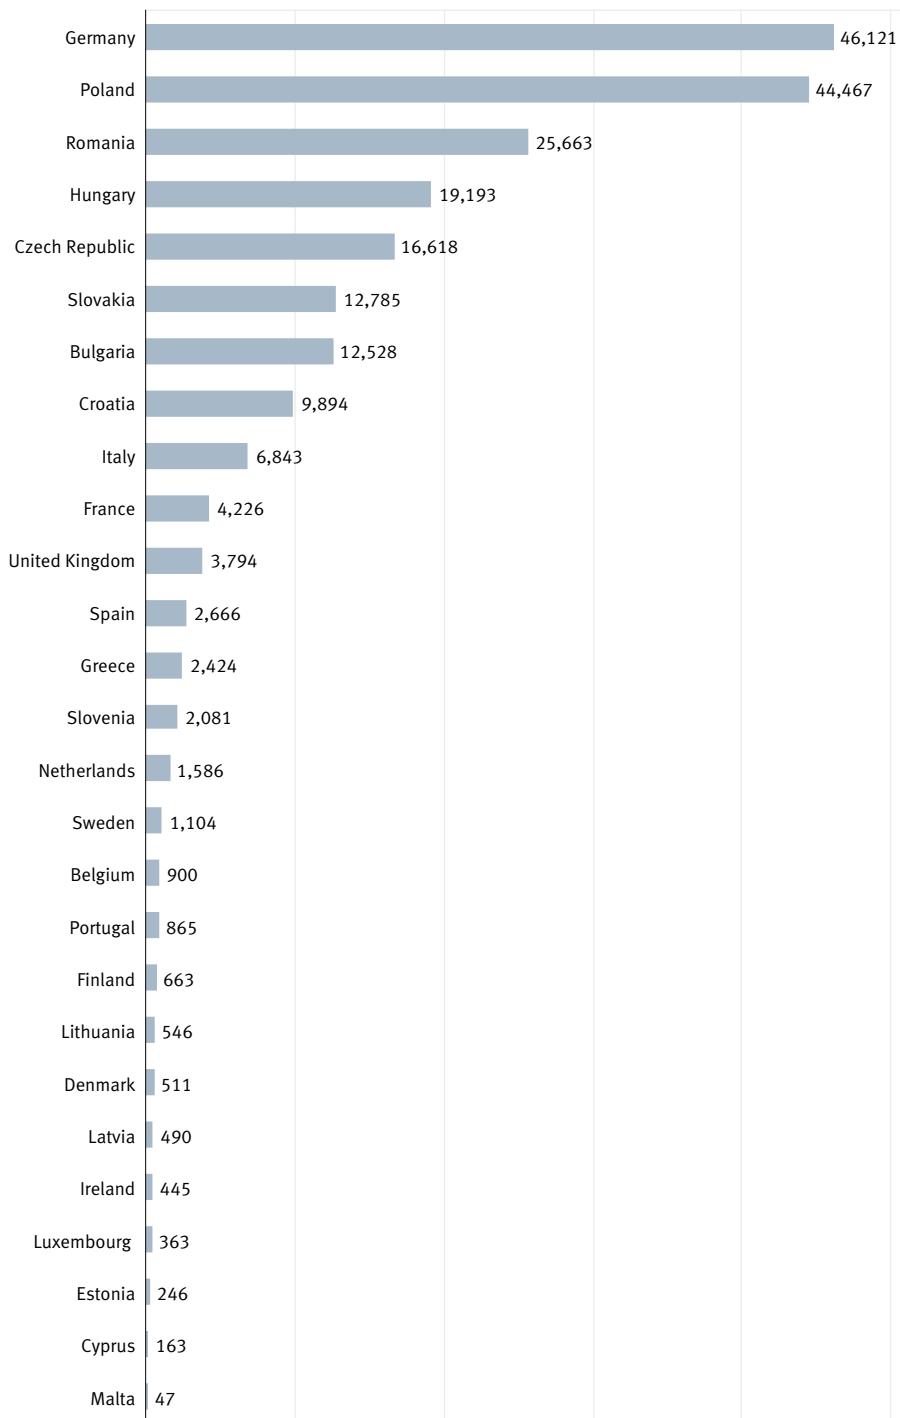

**1 JANUARY 2014:** Latvia introduces the Euro as its national currency.

**25 MAY 2014:** Elections to the European Parliament.

### Innovation Cities Global Index \* 2012–2013 | points achieved

Source: 2thinknow.

\* For the current ranking, underlying data on 162 indicators were summarised to form a simplified 3 factor score for Cultural Assets, Human Infrastructure - mainly mobility, start-ups, education & technology - and Networked Markets. Based on these factors each city is assessed with regard to its conduciveness to the successful implementation of ideas to create regional or global innovation.

## 7<sup>TH</sup> EU FRAMEWORK PROGRAMME FOR RESEARCH, TECHNOLOGICAL DEVELOPMENT AND DEMONSTRATION (FP7)

### PROJECT CONSORTIA COORDINATED BY VIENNA-BASED ORGANISATIONS

The figures indicate the number of participations from the respective country in projects coordinated by Vienna-based organisations.

195 coordinators from Vienna; total volume of projects coordinated: EUR 510 million.

## ANNOTATION ON NUTS REGIONS

NUTS (French: „Nomenclature des unités territoriales statistiques“, English: „Nomenclature of Units for Territorial Statistics“) is a hierarchical system that allows for exact identification and classification of territorial units for the purpose of official statistics in the EU member states.

Territorial statistics are always based on territorial units. To make sure data from different countries is approximately comparable, it is important to refer to territorial units of the same hierarchical level.

NUTS levels are defined as follows:

- NUTS-0: National states (top level)
- NUTS-1: Major regions, parts of countries (macro level)
- NUTS-2: Basic regions, landscapes (medium level)
- NUTS-3: Smaller regions, major cities (micro level)

Due to the large amount of data available from Eurostat at NUTS-2 level, this level was used as the basis for comparison in many tables of the present publication, although in most cases the respective NUTS-2 area is not identical with the city proper.

In the case of Vienna, NUTS levels 2 and 3 are identical as they refer to the geographic area of the City and Federal Province of Vienna. The figures quoted for London are even from NUTS-1 level because this corresponds more exactly to the city's urban area than the NUTS-2 level classification „Inner London“.

Capital cities of smaller EU member states are not included here because their NUTS-2 levels are too large for any meaningful comparison between cities; in some cases NUTS-2 levels even correspond to the national states as such.
