

J. N. 154. 346

4. Aug. 15.

Very wet weather all day long  
and much rain. Went to the  
watering place and was  
there 1825 yards east of  
the village. The water  
was about 14 inches, as high  
as the bridge. The water,  
however, did not rise above  
the bridge.

Dear Friend Mr. D.  
On Saturday morning I  
boarded a steamer at Fulton. It  
was dark and misty and rainy  
most of the night and morning.  
I got up and got breakfast.  
Dressed, took my umbrella  
and left, the steamer  
being delayed until noon,  
so I got into the boat early  
and shipped my umbrella  
in the small room.  
The umbrella was not  
broken.

Arrived in New York  
about 1 P.M., by which  
time we had been 101 R. m.  
dry under the middle ropes.  
Left 1/2 hour earlier, more  
or less broken and
