Dear Mr. Artaria

I don't think that

Dr Bidder mentioned the Tropicols

to me at all - in fact I am

pretty sure we did not talk of

them. No doubt I am the

"man sent from America" but

I have said they were by

Dominico Tropicols. That they are

Field No. 113 Will. II

best described as by G.B. Tiepolo
I have no doubt but I think
that in a large decoration work
like this, while he doubtless
designed the whole he may have
employed assistants.

Glaszner is chiefly concerned
with modern and eighteenth
century French but Tiepolo comes
so near in character to the
French men like Boucher that
I think he would understand.

appreciate them & that they wd.
suit his clientele. If you by
London I would suggest mee
near Dardiswick. I know them
well & believe they would answer
your requirements. They have a
very big gallery.

Many thanks for yr. kind letter.
I hope you will succeed with
the Tripolos.

Yrs. very truly

Roger E. Fry
