LOWER SYDENHAM, S. E.

Dear and honoured Sir,

I have not forgotten the warm and interesting reception which you gave to me and my friend on the 12th Augst last; and having procured a copy of Comdau's Beethoven Album I venture to write to you about it and to ask two questions:-

1. p. 274 2nd line from the top.

Is Brühl the name of a place in or near Baden? or is the

^{-known} well "gottlich vorder oder hinter Brühl" at Mödling referred to?

2. Have you not omitted from your

series of extracts on Baden the interesting account given by F. Rochtitz in his "Für Freunde der Tonkunst" Bd IV. p 358, of his walk with Bonhoeven in the Adenesthal. in 1813? The account is so good that it is a real pity to omit it; and if you ever publish a new edition of your brochure it might perhaps suit you to add it.

Hoping that you are well, and that it may be my good fortune again to shake you by the hand, I am, my dear Herr Rokette,

With grateful and faithful
Service

G. Grove.
