11. 11. 18

Dear Sir,

I have the pleasure to acknowledge the receipt of your letter of the 10th inst. in relation to the matter of the proposed extension of the term of office of the members of the Council of the University of Cambridge. I have also received the copy of the report of the Committee appointed to consider the subject, which I have perused with interest. The Committee's recommendation that the term of office should be extended from three to five years is a very desirable one, and I have no objection to its adoption. I have, however, one or two suggestions which I would like to put forward. I think it would be desirable to provide that the members of the Council should be eligible for re-election, and also that the Council should have the power to elect a certain number of members to represent the students of the University. I think these suggestions would be very desirable, and I have no objection to their adoption. I have the pleasure to inform you that the Council of the University has agreed to accept the Committee's recommendations, and I have no objection to their adoption. I have the pleasure to inform you that the Council of the University has agreed to accept the Committee's recommendations, and I have no objection to their adoption.
