Röntgenografie Rm. 120.

20. 12. 99

Dear Friend,

It would be nice to have you here,
then we could have a very pleasant conversation
with Leo Frobenius which you have written to me.
The interest of these meetings with
you would be very great, because you
are very interested in our work, and
you will be able to benefit from our conversation
which is now over.

The hearty welcome of this "Titane", who
has come to us, comes from the
Buchner in Munich. He writes him the M.
allgemeine Zeitung, for whom he has a
middle, a tickling Pringle, "auf das auf polar Park
actual scientific Warenheit appears". Good, but
not good.

I hope to see you soon, and
will send you a copy of the Röntgenographen

vom Neupfennig zu rechnen und
der Sterbzeit auch eine gute Zeit
und ein glückliches 1900 zu wünschen.

Mit herzen Gedanken
kommen dem aufrichtigen

Felix v. Kuehn
