Wesden March 15th 1842

Sir

The gentleman who will present
you this letter is Mr Pearson
who has cultivated the musical
science with much success - he
has the intention to remain
some time at Vienna, and wishes
to be made acquainted with the
principal Publishers and
Professors of music - You will
greatly oblige me if you would
introduce him to Mr Haslinger
& Mechetti or recommend to Mr
Fischhof who will then present
him to Mr Becker and other
musical men at Vienna -
I trust I shall be at Vienna

502
myself next Winter and shall thank
you then à viva voce for every
attention you may use towards
Mr Pearson.

My best compliments
to all friends and believe
me yours most truly
Parish Always
